Joshua Companion

Web Developer

PROJECTS

User Profile Card
FrontEnd Mentor | March 17 2021

- Worked with Figma designs supplied by FrontEnd Mentor
- Started with a mobile first approach to optimize the mobile experience
- Utilized SASS for organization with variables and equations for responsive sizing

IP Address Tracker
FrontEnd Mentor | June 10, 2021

- Utilized provided Figma design for reference as a wireframe
- Worked with requested functionality to implement the Map and IP tracking functionality
- Used React for its speed and organization of components

Amazon Price Tracker
Joshua Companion | May 24 2021

- Tested Materialize CSS for the UI
- Uses Node.JS and Express to handle requests
- Uses Cron Jobs and Web Scraping techniques to monitor an Amazon product page for price changes
